A brief scope of MPOB's publications are:
Journal of Oil Palm Research (formerly known as Elaeis)
A Brief Of MPOB Publications

Journal of Oil Palm Research, an international refereed journal, carries full-length original research papers and also publishes short communications, letter to editor and reviews of relevant books. It is published three times per year, i.e., April, August and December.

Palm Oil Developments contains short articles on developments in palm oil research, advances in technology and new uses for palm oil. It also contains news briefs and industry statistics. It is published twice a year, i.e., June and December.
Palm Oil Engineering Bulletin (formerly known as Engineering News)

This quarterly Bulletin is published in March, June, September and December. Its objectives are:
- to bring together engineers in the palm oil industry;
- to keep engineers informed on important developments which affect their profession and the palm oil industry;
- to highlight problem areas and discuss possible solutions; and
- to provide a forum for the engineers to express their views and discuss any matters of interest to the industry.

Oil Palm Bulletin (formerly known as PORIM Bulletin)
A Brief Of MPOB Publications

The Oil Palm Bulletin is currently one of the media for communicating information and news to planters, millers, refiners, etc.

Oil Palm Industry Economic Journal

The journal contains articles related to economic research and the trade aspects of the palm oil industry. It is published twice a year, i.e., March and September.
MPOB Technology (formerly known as PORIM Technology)

The MPOB Technology series contains technical articles on specific aspects of the composition, properties, processing, refining, and end-uses of palm oil. It also covers oil palm technology.

Annual Report (Malay Version only)
Annual Report contains the report of the Director-General summarising the progress of the work undertaken by MPOB during the year in review. A list of the senior staff and a Statement of Accounts are also provided.

Annual Research Review

This review describes the progress and development in the various research programmes undertaken by MPOB during a given year. It provides an insight into what has been achieved and also considers the outlook for the future.

Palmoil Update
The Palmoi Update is a monthly bulletin published by MPOB. It contains comprehensive monthly data on palm oil production, stock, export, import, price and sectoral status such as mill, crusher, refinery, oil and FFB yield.

Malaysian Oil Palm Statistics

This is a compilation of valuable statistical information on all aspects of the Malaysian palm oil industry and world oils and fats situations. It is published annually.

Review of the Malaysian Palm Oil Industry
A Brief Of MPOB Publications

Comprehensive information on the performance of the Malaysian palm oil industry by sector. The publication is published annually and highlighted the scenario of the industry and the forecast for the coming year.

PROCEEDINGS

Proceedings of Workshops/Seminars

These are records of workshops and seminars organised by MPOB on various topics of interest related to the palm oil and oil palm industry.

ADDITIONAL PUBLICATIONS
A Brief Of MPOB Publications

These include books, booklets, manuals, handbooks, and directories, which are not regularly published by MPOB. The publications cover a variety of topics related to the palm oil and oil palm industry.
