3. Palm Oil Developments - ISSN 0127 - 3329

No. 1 #
June 1984. 22 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- The Emerging Oleochemical Industry in Malaysia
- Highlights of Research on Food Uses of Palm Oil
- Vitamin E from Palm Fatty Acid Distillate
- Recent Experiences in Price Instability
- Statistical Summary
- News in Brief

No. 2 #
June 1984. 16 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Developments of the Oil Palm Pollination Elaeidobius kamerunicus in Malaysia
- Highlights of Research on Non-food Uses of Palm Oil and Analytical Aspects
- The Oil Palm: Progress through Plant Breeding in Malaysia
- Statistical Summary
- News in Brief

No. 3 #
June 1985. 52 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Some Problems in the Definition and Classification of Palm Oil Products
- Palm Oil, Palm Kernels and Elaeidobius
- Statistical Summary
- News in Brief
No. 4
June 1985. 26 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
• Palm Oil, Palm Kernel Oil and *Elaeidobius* (Part 2)
• Commercial Aspects of Lauric Oils: Production
• The Certificate of Competency Scheme for Refineries
• Palm Oil and Palm Oil Products for Puff Pastry Margarine
• Statistical Summary
• News in Brief

No. 5
June 1986. 26 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
• Availability and Cost Competitiveness of Palm Oil and Palm Kernel Oil in Non-food uses
• Palm Oil in the Indian Food Industry
• Short Communication
• Statistical Summary
• News in Brief

No. 6
June 1987. 21 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
• Studies on Cocoa-butter Replacer Fats
• Animal Feeds in Western Europe – A Huge Market for Fats
• Potential Significance of Palm Oil Products in China
• Short Communication
• Statistical Summary
• News in Brief
No. 7 #
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Palm Oil Products for Cake Shortening
- Perfume Material in Palm-based White Soap
- Special Report
- Short Communication
- Statistical Summary
- News in Brief

No. 8
June 1988. 18 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Improvement in the Frying Quality of Vegetable Oils by Blending with Palm Olein
- Novel Process for the Treatment of Palm Oil Refinery Wastewater
- Nutrition News
- Short Communication
- Statistical Summary
- News in Brief

No. 9 #
June 1988. 33 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Minor Constituents of Palm Oil
- Nutritional Consideration
- Commercial Assessment of Quality in Frying Oils
- Nutrition News
- Advantages of Palm Kernel Oil over Coconut Oil in Foods
- Short Communications
- News in Brief
- Statistical Summary
No. 10
June 1989. 34 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- The Use of Palm and Palm Kernel Oils in Ice-cream and Whipped Cream Products
- Palmitic Acid in the American Diet
- Dietary Oil and Fats in South Korea – Current and Future Trends
- Ethiopian Experience in the Use of Distilled Palm Kernel Fatty Acid from Malaysia as Raw Material for Soap Making
- Enzyme Extraction on Palm Oil
- Palm Oil – An American Dietitian’s Perspective
- Nutrition News
- Nutritional Effects of Palm Oil
- Palm Oil for Frying II
- News in Brief
- Statistical Summary

No. 11 #
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- PORIM Then and Now
- Soups Canned and Dry
- Specialty Fats from Palm and Palm Kernel Oil – A Review of PORIM’s Activities
- Novel Fractionations and Fats from Palm and Palm Kernel Oils
- Nutrition News
- Pipeline System for Bulk Movement of Palm Oil Products
- Use of Palm Based Metallic Soaps as Processing Aids in Rubber Compounding
- A Glimpse at Some of the VIP Visitors to PORIM
- News in Brief
- Statistical Summary
No. 12 #
January 1990. 42 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Quality Preservation during Transportation
- Quality Control Measures in the Malaysian Palm Oil Industry
- Palm Oil Sterols
- Nutrition Highlights
- Content of Vitamin E in Palm Oil and its Antioxidant Activity
- Short Communication: Genetic Resources – New Developments in Oil Palm Breeding
- Abstracts of Patents: Oleochemicals
- News in Brief
- Statistical Summary

No. 13 #
January 1990. 44 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Palm Products in Coffee Whiteners
- PFAD for Feed
- Reflections on Crude Palm Oil Quality
- The Pattern of Consumption of Oils and Fats in Malaysia
- Recent Findings on Dietary Lipids
- Relationships with Coronary Heart Lipids Disease
- Palm Oil in the West Asian Market
- Quality Wins – A Company Profile
- News in Brief
- Pictorial Round-up
- Short Communication
- Statistical Summary
No. 14
October 1990. 46 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- From the Office of the Director-General
- Techno-economic Aspects of Palm Oil and Palm Kernel Oil in Oleochemicals
- Developments in Pricing of Palm Kernel Oil
- The Future of Palm Oil in Oleochemicals
- Oleochemical Products in Food Applications
- Sensorial Evaluation of Fragrance in Palm- and Tallow-based Soaps
- Minor Components from Palm Methyl Esters
- Abstracts of Patents

No. 15
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- The Use of the Barn Owl as a Biocontrol Agent
- Palm Olein Improves Cooking Oil Blends
- Hydrogenation is Often Unnecessary with Palm Oil
- Specialty Fats Products from Palm and Palm Kernel Oil
- Nutritional Highlights
- Nutritional Roles of Dietary Fats with Special Reference to Palm Oil
- The Use of Palm Products in Toffee
- Intercontinental Specialty Fats Sdn Bhd and CBE from Palm Oil – A Company Profile
- The Progress of Palm Oil in East Asia
- Supply and Disappearance – A Review
- Contents of Past Issues
No. 16
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Developments in Food Uses of Palm Oil: A Brief Review
- Interesterification – A Useful Means of Processing Palm Oil Products for Use in Table Margarine
- Highlight of the Director-General’s Report on Palm Oil and Human Nutrition
- Trans Fatty Acids – Summary
- Prospects for Palm Oil in the Arab Maghreb Union
- Supply and Disappearance – A Review

No. 17
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- The Oil Palm Industry: Its Impact on the Environment
- Dietary Fats and Cancer with Special Reference on Palm Oil
- Summary of Research Findings on Palm Oil Nutrition Appearing in Nutrition Research, April 1992 (Supplement)
- Felda Refinery Corporation
- Supply and Disappearance – A Review
No. 18
April 1993. 26 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Modification of Palm and Palm Kernel Oil and their Fractions for Margarine
- Trends in Yellow Fats Consumption in EEC
- Low Calorie – Spreads in the Margarine Industry
- New Development of Palm Oil Trade in China
- Recent Advances in Human Nutrition: the Role of Palm Oil
- Profile of Acidchem
- Prices
- Supply and Disappearance – A Review

No. 19
September 1993. 60 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Mechanical Loader for Oil Palm Bunches – the Grabber
- A Novel Efficient Process for the Production of Monoglycerides from Palm Oil and Palm Oil Product
- Company Profile – SOCTEK
- GODREJ Soap Ltd. – A Leading Exporter of Toiletry Products
- Sensory Properties of Palm Oil and Palm Oil Products
- Palm Oil-based Ink
- Combined Sterilization – Stripping Process
- Trans Fatty Acids: Their Dietary and Health Implications
- Production and Applications of Deacidification and Deodorized Red Palm Oil
- Prices
- 12th Palm Oil Familiarzation Programme – Perfumes in Palm-based Soaps
- Supply and Disappearance – A Review
Contents:
- Q’ Seeds – Quality Oil Palm Planting Material
- Golden Hope Plantations Berhad – Company Profile
- Quality Management in the Malaysian Palm Oil Mills
- Quality Assurance System in a Palm Oil Refinery – Jomaline Experience
- ISO 9002 Quality System on Oleochemical Manufacturing in Malaysia
- Quality R&D Practices in the Plantations Sector
- Malaysian Palm Oil Industry Shares World Concern for the Environment
- Genetic Engineering of Oil Quality
- MIGOP – Palm Oil Products Pioneer in Egypt
- Supply and Disappearance – A Review
- 1993 and 1994 Palm Oil Prices

No. 21
September 1994. 56 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Worldwide Market Acceptance of Palm Oil
- West Asian Market – Developments and Prospects
- Palm Olein Captures the Market for Instant Noodle Frying
- Use and Marketing of Palm Oil in the Mediterranean Countries – Single vs. Blended
- Market Acceptance of Palm Oil: the Nutritional Angle
- MARMARA’s Findings Support the Viability of Blending Palm Oil with Sunflower or Soya Bean Oil for the Turkish Cooking Oil Market
- Market Acceptance for Palm Based Vegetable Ghee in Pakistan
- INDUSALIM – a Market-Oriented Margarine Producer in Morocco
- United Plantations (Unitata) – A Company Profile
- Soap Industry in Algeria – A Market Niche for Palm Oil
- Potential for Palm Oil in Morocco
- Supply and Disappearance – A Review
- 1994 Palm Oil Prices
No. 22 #
March 1995. 44 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Carotenoids from Palm Oil
- Palm Vitamin E: A Value-added Tocotrienol-rich Fraction (TRF) from Palm Oil
- Highly Nutritious Satay Sauce Made with Unrefined and Partially Refined Palm Oleins
- Effect of Polyglycerol Ester on Resistance to Bloom Formation of Milk and Plain Cocoa Butter Substitutes (CBS) Bar Chocolate
- Minor Component in Edible Oils and Fats: Their Nutritional Implications
- Lion Oleochemical: Development of Purified Natural Carotene form Palm Oil
- Carotech Sdn Bhd – First Integrated Plant for Carotenes and Vitamin E
- Trans Free Formulations: A Short Review
- Supply and Disappearance – A Review
- 1994 Prices of Palm Oil

No. 23
September 1995. 30 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Application of Palm Oil Products in Salad Dressing
- Palm-based Imitation Cheese
- Production of High Carotene Palm Olein Using Moderate Deodorization Temperatures
- Peanut Butter
- Greening the Skin the Palm Oil Way
- Recent Advances in Palm Oil Nutrition
- Current Research on Palm Oil Quality
- Supply and Disappearance: A Review
- 1994 and 1995 Prices of Palm Oil Products
No. 24
March 1996. 38 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Overview on the Development of Palm Based Polyurethane Foams
- Vegetable Oil and its Derivatives for Lubricants
- Fatty Acid Derivatives as Textile Auxiliaries
- Application of Vegetable Oils and their Oleochemicals in Pesticide Formulations
- Palm Oil Carotenoids: Are They The Saviour of the Beta-Carotene Debacle?
- Supply and Disappearance: A Review
- 1995/1996 Prices of Palm Oil and Other Major Oils and Fats

No. 25
September 1996. 42 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Advanced Oleochemical Technology Centre (AOTC)
- Liquid Laundry Detergent
- Oleochemicals in Skincare Products
- The Use of Lipase Enzymes in the Modification of Oils and Fats - A Review
- Fabric Softening Agents - Towards a Gentle, Economical and Safer Future for Fabric Treatment
- Supply and Disappearance - A Review
- 1996 Prices of Oils and Fats

No. 26
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Development of Palm Oil-based Printing Ink
- Deinking of Waste Paper
- Potential of Paper Coating with Palm-based Materials for Food Wrappers
- Biotransformation in the Oleochemical Industry
- Research Highlights on the Nutritional and Health Aspects of Palm Oil
- Transferring Know-how on Oleochemicals
- Supply and Disappearance - A Review
- Summary of 1996 Prices of Oils and Fats
No. 27
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Carotenes, Vitamin E and Sterols in Oils from *Elaeis guineensis*, *Elaeis oleifera* and their Hybrids
- Biodegradation and the Evaluation of Chemicals in the Environment
- Red Palm Oil for the Prevention of Vitamin A Deficiency
- Industrial Applications of Biosurfactants
- Supply and Dissappearance: A Review
- 1996/1997 Prices of Oils and Fats

No. 28
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- The Chemical and Physical Characteristics of Oleochemicals Produced in Malaysia
- A Review on Toxicological Properties of Fatty Acids, Fatty Alcohols and their Derivatives
- Health and Nutritional Aspects of Palm Stearin: Perceptions and Facts
- Supply and Disappearance: A Review
- Summary of 1997 Prices of Oils and Fats

No. 29
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Palm-based Shortenings Suitable for Indian market
- Recent Results on Palm Oil Uses in Food Products
- Relationships Between Induction Period and Temperature of Fatty Foods
- Quality Improvements in Production of Malaysian Palm Oil
- Some New Insights on Dietary Fats in Health and Disease
- Supply and Disappearance of Malaysian Palm Oil: A Review
- 1998/1999 Prices of Selected Oils and Fats
No. 30
March 1999. 60 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Environmental Management for the Palm Oil Industry
- PALMOILIS - Your Information Partner in the Palm Oil Business
- Technical and Social Issues of Mechanization in Oil Palm Plantation Industry
- Highlights of Research on Food Uses of Palm Oil and its Products
- Nutrition Research on Palm oil and its Components: The PORIM Experience
- SMI-Soap Production
- A Revised Long-term Forecast on World Palm Oil Production and Consumption
- Supply and Disappearance of Malaysian Palm Oil: A Review
- 1997/1998 Prices of Selected Oils and Fats

No. 31
September 1999. 51 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Palm Oil in the Next Millennium
- Challenges Facing the Oil Palm Industry - The Plantation Perspective
- Biotech in the 21st Century: What's in it for the Oil Palm?
- Palm Oil/Palm Olein Effects on Blood Lipids
- Malaysian Palm Oil Board - A Merger of PORIM and PORLA
- Supply and Disappearance: A Review
- 1998 and 1999 Prices of Oils and Fats
No. 32
June 2000. 51 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Challenges Facing the Malaysian Palm Oil Industry
- Tocotriennos: Antioxidant and Anti-cancer Properties
- Valuable Phytonutrients in Commercial Red Palm Olein
- Coping with Media Modulated Confusion and Controversy in Lipids Nutrition
- Prices of Selected Oils and Fats in 1999 and in the New Millennium
- Supply and Disappearance of Malaysian Palm Oil: A Review
- Coenzymes Q in Palm Oil and Palm Oil Products
- Squalene in oils and fats

No. 33
December 2000. 38 pages.
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Frying Performance of Palm Olein and High Oleic Sunflower Oil During Batch Frying of Potato Crisps
- Application of Palm Products in Ice Cream
- Practical Guide to Establishing Palm Carotenoids Profiles by HPLC with Three Dimensional Diode Array Detector
- Palm Oil Effects on Postprandial Lipid and Prothrombotic Response
- Supply and Disappearance: A Review
- Prices of Selected Oils and Fats in 2000

No. 34
June 2001. 30 pages
RM 21.00 (Malaysia only)
USD 15.00 (other countries)

Contents:
- Quality and Characteristics of Malaysian Palm Kernel Cakes/Expellers
- Malaysian Palm Kernel Cake as Animal Feed
- Feeding Trials in Malaysia: Palm Kernel Cake as a Feedstuff for Cattle
- Price Scenario in 2000 and Prospects in 2001
- Changing Perceptions on the Role of Saturated Fats in Human Nutrition
- Supply and Disappearance of Malaysian Palm Oil: A Review
No. 35
December 2001. 34 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Potential of Palm Blend in the Formulation of Mozarella Analogue
- Some Complexes of Glycerol and their Applications
- Properties and Utilization of Palm Kernel Oil
- Recent Advances in Food Technology and Nutrition: Highlights from PIPOC 2001
- Supply and Disappearance: A Review
- Price Scenario of Selected Oils and Fats in 2001

No. 36
June 2002. 30 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Research and Development of Oil Palm Biomass Utilization in Wood-based Industries
- Understanding the Interactions of Diacylglycerols with Oils for Better Product Performance
- Phytochemicals from the By-product of Palm Oil Refining
- Nutrition and Health: Why is it Still Ticking Against Palm Oil?
- Supply and Disappearance of Malaysian Palm Oil: A Review
- Price Scenario of Selected Oils and Fats in 2001 and Prospects in 2002

No. 37
December 2002. 30 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- How a Leading Noodle Producer Can Add Value to Soap Marketers in Meeting the Challenges of Soap Trends
- The Future of Palm-based Soap in Asia Pacific
- Palm-based Surfactants Synergy in Soap Applications
- Trans Fatty Acids – Nutritional Considerations and Labelling: A Update and Implications for Palm Oil
- Supply and Disappearance: A Review
- Price Scenario of Selected Oils and Fats
No. 38
June 2003. 30 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Effects of Additives on Quality and Frying Performance of Palm Superolein During Frying
- South Africa's Initial Experience in Using Palm Olein Blends for the Manufacture of Pre-fried French Fries
- Oil Absorption, Polymer and Polar Compounds Formation During Deep-fat Frying of French Fries in Vegetable Oils
- Tocotrienols and Gene Expression -Techniques Available
- Supply and Disappearance: A Review
- Price Scenario of Selected Oils and Fats in 2002 and 2003

No. 39
December 2003. 30 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
*Trans* Fatty Acids: An Update on its Regulatory Status
- An Overview of IE with Reference to PO
- TAG Composition and Solid Fat Content & Sunflower Oils (SPO), PK Olein Blends Before and After Chemical IE
- Human Isotope Studies on Neutrality of Palmitic Acid

No. 40
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
- Palm-based Animal Feed and MPOB's Energy and Protein Centre
- Use of Palm Kernel Cake in Compound Feed
- Palm Fats for Livestock Feeding
- The Nutritive Value of Palm Kernel Cake for Animal Feed
- Supply and Disappearance: A Review
- Prices of Selected Oils and Fats in 2003 and 2004
No. 41  
December 2004. 40 pages  
RM 21.00 (Malaysia only)  
USD 14.00 (other countries)  

Contents:  
• Aquaculture 2002: Over 50 Million Tonnes & Climbing  
• Palm Oil as a Novel Dietary Lipid Source in Aquaculture Feeds  
• Researching the Use of Palm Kernel Cake in Aquaculture Feeds  
• Antioxidants and Prostate Cancer  
• Megalac® - A Global Success Story for the Use of Palm Oil in the Livestock Sector  
• Supply and Disappearance: A Review  
• Prices of Selected Oils and Fats in 2004 and their Prospects in 2005

No. 42  
June 2005. 46 pages  
RM 21.00 (Malaysia only)  
USD 14.00 (other countries)  

Contents:  
• Biofuel: An Alternative Fuel in the Malaysian Scenario  
• Palm Diesel: Green and Renewable Fuel from Palm Oil  
• Supply and Demand of Biodiesel in the European Union (EU)  
• Performance of Palm Oil-based Biodiesel Fuels in a Single Cylinder Direct Injection Engine  
• Replacement of Trans Fatty Acids (TFA): The Use of Palm Oil as One of the Alternate Fats in the United States of America  
• Palm Biodiesel: Gearing Towards Malaysian Biodiesel Standards  
• Supply and Disappearance: A Review  
• Prices Prospects for Selected Oils and Fats in 2005

No. 43  
December 2005. 38 pages  
RM 21.00 (Malaysia only)  
USD 14.00 (other countries)  

Contents:  
• Palm Oil: The Solution to Over-Used Oil in South Africa  
• Performance of Special Quality and Standard Palm Olein in Batch Frying of Fish Nuggets
• Palm Oil – The Healthier Choice for Fast Food Industries
• Meeting the Rising Health Awareness: The Palm Oil Formula
• Supply and Disappearance of the Malaysian Palm Oil: A Review
• Prices of Selected Oils and Fats in 2004 and 2005

No. 44
June 2005. 33 pages
RM 21.00 (Malaysia only)
USD 14.00 (other countries)

Contents:
• An Overview of R&D in Palm Oil-Based Polyols and Polyurethanes in MPOB
• Non-Food Applications of Palm-Based Products – Market Opportunities and Environmental Benefits
• The Potential for Tocotrienols in Inflammation
• The Changing World of Oleochemicals
• Innovations from MPOB on Analytical Techniques
• Effective use of Palm Products/By-Products as Fat Energy in Broiler Feeding
